 Powell Software

Powell Software develops digital workplace solutions that improve the employee experience, helping companies write their own “future of work” by leveraging the talent of their entire workforce.

OBJECTIVES

- 1 Inform and engage 47,000 employees around a group intranet accessible to every subsidiary and department across 30 countries.
- 2 Create a comprehensive hub with spaces for work, company life, personal productivity, and communities.
- 3 Foster collective intelligence.
- 4 Make the intranet a space that centralizes the employee experience and connects the entire digital workplace with Microsoft 365 technologies.
- 5 Benefit from native Microsoft 365 advantages such as security and access to service updates.
- 6 Facilitate construction, deployment, and maintenance at scale – simplify multi-site and governance management.
